

# Triage by Review of Intention, Activity, Growth, and Engagement

Noah Syrkis

February 12, 2024

1 | Triage the term

2 | Triage the repo

3 | Tracking

4 | Surveying

5 | `todo.txt`

6 | Roadmap

## 1 | Triage the term

- ▶ Triage is a term from the medical field.
- ▶ It is the process of determining the priority of patients.
- ▶ Based on severity, urgency, and the potential for recovery.
- ▶ Used pictorially to describe the process of prioritizing work.

## 2 | Triage the repo

- ▶ A evolving productivity app.
- ▶ A collection of automation scripts, tools and resources.
- ▶ Currently three central features.

## 2 | Triage the repo (cont.)

1. Automated activity tracking.
2. Daily automated survey.
3. todo.txt integration.

## 3 | Tracking

- ▶ Logs app and window title every 30 seconds.
- ▶ Database is local.

## 4 | Surveying

- ▶ Asks a series of questions after 18.00.
- ▶ The Qs are defined in `todo.txt`.
- ▶ The As are stored in the local database.

## 5 | todo.txt

- ▶ A simple and extensible file format.
- ▶ Can be used to define the Q for the survey.
- ▶ Only rule: every line after “// survey\n” is a Q.

## 6 | Roadmap

- ▶ Add a web interface.
- ▶ Social todo.txt.
- ▶ Windows and Linux support.
